

Maryland Senior Call Check Pilot Program

Live in your home with peace of mind

Every day a telephone call will be placed to a participant at a regularly scheduled time. These calls will take place between 8:00am-4:00pm as close as possible to the one-hour time block pre-selected by the participant. If the participant does not answer their first call, they will be tried two more times.

If those calls go unanswered, additional calls will be made to notify an alternative person who is selected by the participant during the program enrollment. This could be an adult child, a neighbor or another loved one. The alternate will then be encouraged to check on the program participant.
