RE: FY17 Funding for Greenbelt Cares

Dear Mayor Jordan,

Thank you for your letter of July 11, 2016 to Governor Hogan regarding the funding for Greenbelt Cares, a Youth Services Bureau. We appreciate the opportunity to clarify the funding decisions made for fiscal year 2017.

The decisions to not fund Greenbelt Cares were based solely on the demonstrated ineffectiveness of the mental health services provided and not whether the restricted funding was available. The goal for the FY17 funding process announced in September, 2015 was to ensure accountability to the State and the communities for high quality, critically needed services. Regardless of the amount of funding available, the Children's Cabinet and the Governor's Office for Children would not be funding ineffective, duplicative or unnecessary services.

The Notice of Funding Availability required Local Management Boards to demonstrate that proposed programs met a critical need, filled gaps, were prioritized, and were shown to be effective through 2-3 years of performance measures. Materials describing the process were widely distributed, extensively discussed, and made available on the Governor's Office for Children website.

As a result of this process we were able to fund \$16,059,191.00 in programs through the Local Management Boards across the State. Based on their proposals this included approximately:

- \$1.2 million for home visiting programs (focused on single mothers with children under the age of 3 years old);
- \$1.5 million in navigation and case management services; and
- \$1.2 million for Youth Services Bureaus.

Other critically needed programs such as evidence-based mental health services, after-school and summer meal programs, substance abuse prevention and delinquency prevention programs were also funded.

With regard to Youth Services Bureaus, the Local Management Boards proposed funding based on their assessments of need in their jurisdictions and program performance:

BY:.....

8/5/16
cc: L. Park
M. MC

- Level funding for 5 Youth Services Bureaus (Baltimore City, Baltimore, Charles, St. Mary's)
- Increased funding for 3 Youth Services Bureaus (Anne Arundel, Carroll and Calvert)
- Decreased funding for 3 Youth Services Bureaus (Montgomery)
- Bidding out the services of 2 Youth Services Bureaus (Harford and Dorchester)
- Eliminating funding for 1 Youth Services Bureau (Anne Arundel)

The Children's Cabinet and the Governor's Office for Children take seriously our responsibility to use taxpayer dollars wisely, which includes not funding programs that have been performing poorly. Therefore, we could not justify funding Greenbelt Cares based on performance data showing that the formal mental health services are not effective.

Youth Services Bureaus are governed by COMAR 16.17.01.03 which requires that they provide Formal Counseling which is defined as " (a) Individual, family, and group counseling shall be considered formal counseling if counseling sessions are provided on a regularly scheduled basis for more than three sessions". At the recommendation of the Maryland Association of Youth Services Bureaus, we use the Child and Adolescent Functional Assessment Scale tool (CAFAS) to assess the quality of mental health services. The CAFAS was adopted as the performance measurement tool in 2007 (refined in 2014) through a collaborative process with the Local Management Boards and Youth Service Bureaus.

The CAFAS is a nationally recognized, standardized instrument used to inform the focus of treatment and to monitor change in behavior over time. It is also used as a performance measurement tool to measure organizational outcomes and assess system outcomes by comparing the quality of services across programs.^{1,2} Other States have used the CAFAS "improvement over time" measure to conduct statewide comparisons of programs.^{3,4} In Maryland, CAFAS performance and participation data is collected and reported quarterly by the Youth Services Bureaus to the Local Management Boards, pursuant to their contractual agreements. The data provided by Greenbelt Cares showed that in FY 14 60% of the participants in formal counseling showed improvements and in FY15 that dropped to 53%.

In your letter you mention oversight and monitoring by the Department of Juvenile Services. In COMAR it specifically says that "[t]his regulation does not limit the ability of any State or local government or agency that provides funds to a bureau from reviewing the bureau's program for compliance with the terms of the bureau's grant or contract with the State or local government or agency, and from taking any appropriate action". The Department of Juvenile Services does not assess or monitor the quality of services provided. The monitoring is to determine compliance with the requirements in COMAR. Given the need for additional information about the quality of services, the Youth Services Bureaus identified

the CAFAS as a performance measurement tool that is now required in the contracts with the Local Management Boards.

Starting in September 2015 all vendors, such as the Youth Services Bureaus, were repeatedly advised to work with their Local Management Boards to ensure that the services they were providing would meet the needs of the jurisdiction and would be able to demonstrate effectiveness. Thus, all vendors were provided ample time and opportunity to plan for changes. Youth Services Bureaus were specifically advised of the transition at three separate meetings with me on February 18, April 22 and July 27, 2015. Several Youth Services Bureaus worked closely with their Local Management Boards to modify services accordingly, using the time provided to make adjustments. As noted previously, Greenbelt Cares was unable to meet the minimum requirements for performance (FY 14 60% of the participants in formal counseling showed improvements and 53% in FY15) and they did not make changes in their program to improve the effectiveness of their formal mental health services.

Based upon the data provided by Greenbelt Cares, in FY15 approximately 8 participants completed formal counseling which means the loss of funding should have a minimal impact on children and families seeking formal mental health services. However, we share your concern about ensuring children receive needed services and the Governor's Office for Children is prepared to assist the Prince George's County Local Management Board with locating mental health providers for the children previously served.

Thank you again for the opportunity to respond to your questions. I hope this information was helpful.

Sincerely,

Arlene F. Lee,

Dear Fellow Greenbelt Citizens:

Enclosed is the City of Greenbelt's Adopted Budget for the fiscal year beginning July 1, 2016, and ending June 30, 2017 (FY 2017). The City Manager submitted a proposed budget to the City Council on March 29, 2016. The City Council held eight work sessions, as well as two public hearings in April and May to review and study the proposal. As always, your interest and comments during this process were greatly appreciated.

The adopted FY 2017 budget is \$27.3 million, an increase of \$528,100, or 2.0% over the FY 2016 budget with no tax rate increase. This increase reflects improving economic and fiscal conditions for the City which are expected to continue in the coming years. These improving conditions are supported in part by the new development at Greenbelt Station which will extend into the next couple of years.

The City is also seeing growth in Income Tax receipts which means Greenbelt residents are doing better, and a jump in Hotel/Motel receipts which shows the City's hotels are doing well. On the other hand, Corporate tax receipts are declining due to the on-going impact of the 2008 recession on the commercial office market.

The adopted budget includes numerous proposals to enhance our community such as:

- 1) \$166,000 for economic development initiatives and implementation of the recommendations from the Hyattsville Community Development Corporation;
- 2) Expanding the hours of the Geriatric Case Manager to address the demand for these services;

- 3) A contribution to the Greenbelt Community Foundation to help celebrate its 10th Anniversary of supporting Greenbelt community organizations;
- 4) Repairs to the Greenbelt Lake dam;
- 5) In the Public Works Department, the position of Environmental Coordinator was established and the Summer help program was expanded from two seasonal positions to four; and
- 6) The employees' health insurance plan with CareFirst was changed which will save \$300,000.

After a number of difficult years financially, we believe conditions have turned positive and will remain so into the near future. We look forward to a decision being made on a location for a new headquarters for the Federal Bureau of Investigation (FBI). We believe that Greenbelt is the best site for the region due to its proximity to mass transit and other transportation modes.

We are grateful for the support you provide us year in and year out and recognize the responsibility you place with us as your elected officials.

Sincerely,

Hello Mike,

This is the work completed to date, as a result of the assessment:

2 Court Eastway – Replaced net, painted backboard, installed new rim
Ivy Lane – Replaced net, painted backboard
McDonald Field – Cleaned backboard
St. Hugh's – Replaced nets
Stream Valley – Painted backboard
Youth Center – Replaced nets

I do think a decision needs to be made regarding the Court on Mandan. It either needs to be refurbished and opened, or completely shut down since it is now overgrown and abandoned.

Yes this was shared and coordinated with the Recreation Department. We have already replaced several nets and power washed several backboards. The Northway Court has not been resurfaced yet, but we will be addressing it.

I am forwarding the attached to City Council at Ms. Davis' request. Some questions –

1. Has this been shared/coordinated with Recreation Department? They do something similar.
2. Is any work scheduled as a result of this – such as resurfacing the Northway court?
