Mike,

The developer of the Jarra property decided to look elsewhere for a suitable mitigation site. He is not interested in using Greenbriar Park as a mitigation site. He found our review process too frustrating according to ESA.

## Memorandum

**TO:** Michael McLaughlin, City Manager *mm*  
**FROM:** Jessica Bellah, Community Planner  
**VIA:** Celia Craze, Director, Planning and Community Development  
**DATE:** April 14, 2015  
**RE:** Speed and Traffic Reports Greenhill Rd

### Background

In response to past complaints of speeding, Speed Sentry units were installed on Greenhill Road. Data was collected from September 1, 2014 – October 3, 2014.

At the April 13, 2015 City Council meeting, the issue of possible speeding on Greenhill Road was raised. Additionally, Lakewood residents notified staff and Council of an incident involving a County school bus and indicated specific concerns related to bus traffic on this road.

### Summary of Data

The speed limit of Greenhill Road is 25 mph. The road is narrow at ~ 24 feet wide and parking is allowed on both sides of the street. A steep slope exists near the intersection of Hillside Road, Greenhill Road, and Research Road. There are limited sightlines for vehicles traveling to and from this intersection.

Speed Sentry units were placed across from Fayette Place facing westbound traffic traveling downhill from Hillside Road toward Crescent Road and across from Greentree Place facing eastbound traffic traveling from Crescent Road toward Hillside Road. Eastbound traffic was found to be largely in compliance with the posted speed limit with 85% of vehicles traveling within a 20-25 mph range.

The data shows that approximately half of westbound traffic is traveling over the posted speed limit, however, 85% of all vehicles are traveling under 30 mph, typically 2-3 miles above the speed limit. Increased speeds can be attributed to the significant slope after which traffic speeds decrease.

### Current Actions and Recommendations

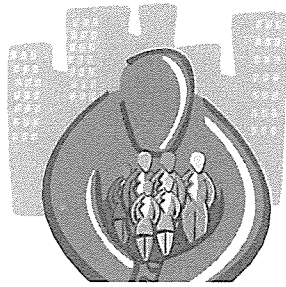

Traffic data collected shows that the majority of traffic on Greenhill Road travels at speeds within 5 +/- mph of the posted speed limit. Slight speeding (+3 mph) primarily occurs on the steeply sloped segment of Greenhill Road. It is difficult to implement traffic calming measures due to existing topography and sightlines. Further, guidelines do not recommend active traffic calming for streets with 85<sup>th</sup> percentile speeds within 5 mph of the posted speed limit. For these reasons, staff does not recommend the use of traffic calming infrastructure along Greenhill Road.

There have been isolated instances of vehicles recorded traveling at speeds between 38 – 45 mph. While enforcement by police can temporarily influence driver behavior, the data does not provide a clear picture of when enforcement would be most effective. Further analysis may better guide targeted enforcement.

To address concerns related to bus traffic on Greenhill Road, further data collection is necessary. Because of their greater mass, busses are often perceived to be traveling at greater speeds than they are. Staff will initiate a focused study that concentrates on bus traffic, collecting information on typical speeds and specific bus numbers of violators.

## CITY NOTES

### Greenbelt CARES

#### Week Ending May 1

The Greenbelt Assistance in Living Program received a generous donation of incontinence supplies from the DC Diaper Bank in Silver Spring. The donation provided 5,000 Depends briefs to Greenbelt Caregivers and residents. GAIL staff has been invited back next week to pick up additional supplies.

As the current Chairperson of the County Executive's Advisory Committee on Aging, Christal Batey attended Ethics Training provided by the Prince George's County Office of Law on Wednesday.

Rosalind Ceasar, Staff Liaison, attended the Advisory Committee on Education (ACE) regular meeting on Tuesday. The main agenda was to plan for ACE Student Awards which will be held on May 11. The Office of the Maryland Delegates has informed ACE that after this year, they will not be providing citations for the ACE student award winners. However, they will continue providing citations for the educator awards.

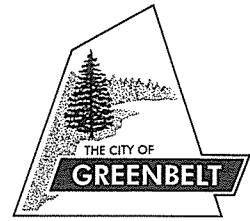

Liz Park and two other MAYSB members met with the new Director of the Governor's Office for Children, Arlene Lee. Ms. Lee also held this position under Governor Ehrlich. They discussed current and future funding for Youth Service Bureaus.

Liz Park participated in a webinar entitled, "What are the most effective services to treat and prevent suicidal behavior?" sponsored by the National Council for Behavioral Health. The webinar covered best practices for assessment and treatment of suicidality as well as organizational changes needed in primary care settings to increase suicidal ideation detection.

During the month of April, 12 families on average were seen for counseling at CARES. Fifty-two individuals on average came on a weekly basis among whom eighteen were 18 years of age and younger. The CICs (Crisis Intervention Counselors) saw seven clients.
