- IV. Cherrywood Lane Presentation of 15% Design Plans for Phase 2 of the Cherrywood Lane Complete and Green Street Project

Ms. Porter presented the 15% design plans for Phase 2 of the Cherrywood Lane Complete and Green Street Project that were drafted by RK&K. Ms. Porter detailed that the roundabout at Greenbelt Metro Drive will remain unchanged and that bicycle traffic will be directed towards a shared-use path. Ms. Porter then described that on the bridge the design proposes 6' bicycle lanes and that the buffers between cyclists and vehicles have not been determined. The Board discussed some options for buffers including armadillos and a concrete curb. Mr. Drake noted that the type of buffer should be further discussed and individuals familiar with the different types of buffer should be consulted.

The Board then discussed the roundabout proposed at Cherrywood Lane and Ivy Lane where the Motiva development is occurring. Councilmember Davis clarified that the developers of that site are not responsible for the construction of the roundabout. Ms. Hruby noted that while the developers are not responsible for the construction of the roundabout they will be contributing \$100,000 to the Cherrywood Lane Complete and Green Street project.

Mr. Friedman raised a question about how bicycle facilities on Cherrywood Lane could be connected to the existing American Discovery Trail. There was then a discussion that cyclists could be encouraged through signage to use Ivy Lane to connect to existing trails. Staff was notified that the meeting needed to end to avoid conflict with a different meeting or new Zoom meeting credentials would be needed to continue the meeting. At that time the Board members expressed general support for the plans and Ms. Porter noted that the consultant will be working on developing 30% draft design plans which will also be presented to the Board.
