Subject: FW: Franklin Park Apartments-Unauthorized Casa De Maryland Rally
Attachments: flyer.jpg; CASA and Franklin Park ; Re: Franklin Park Apartments-Unauthorized Casa De Maryland Rally

Importance: High

Council,

Please see the message below and related attachments. I will ask staff to include this in the weekly report as well.

In follow-up to yesterday's email from Councilmember Davis requesting confirmation of the accuracy of eviction information that she received, I asked staff to help follow-up.

Captain Gulledge has assigned five police officers to be present for the reported Monday rally at Franklin Park. This is a logistical challenge, yet the challenge will be met. There appears to be a second rally planned for Saturday. Police has been notified of this potential event as well.

Please note that Franklin Park's General Manager, Denise Knight, contacted me this morning after she sent the email below. Denise shared concern regarding alleged miscommunication between Franklin Park Apartments and CASA. Denise also stated that Franklin Park will not tolerate rallies without permission from Franklin Park. Denise wants City Council to step in to support Franklin Park as she sees a pattern of inaccurate information spread about Franklin Park and Franklin Park's work to support residents facing COVID-19 related hardships. Denise confirmed that Franklin Park continues to adhere to their commitment to County Councilmember Turner regarding not evicting tenants for COVID-19 related hardships for some time.

Ms. Knight would like Greenbelt City Council to acknowledge the effort that Franklin Park has made, including on-going work with the County, City, and community partners- which includes CASA. She stated that CASA reportedly has had regular communication with Franklin Park staff to help residents, yet there was no communication to Franklin Park regarding allegations being circulated. Staff received a copy of a statement sent to CASA yesterday evening that seems to express concern (attached).

Denise indicated that about a month ago someone (allegedly CASA) started going door to door leaving flyers and/or sharing information about evictions. She shared that while Franklin Park's permission to be on the property was not requested, Franklin Park did not interfere. However, she has learned about reportedly inaccurate information that was shared with tenants. Likewise, Denise indicated that Franklin Park had 11 people evicted last month for reasons not related to COVID-19 hardship. This could have included matters like nuisances or criminal activity.

I was not familiar with the writ process, which she explained is filed by the company after a tenant is two to three months behind on rent, yet reiterated the company is not evicting tenants who express COVID-19 related hardship.

She stated that Franklin Park has conducted outreach (as previously described to Council in work session), worked with community partners, worked directly with tenants, and filed for relief on behalf of tenants. Franklin Park only asks that tenants work with Franklin Park or show that they are making effort to address their need. I asked if not having a City rental relief application would harm a tenant in that instance- she noted it would not, the few tenants that have not responded just need to respond to Franklin Park's efforts to reach them and help them. Some tenants have not responded to the company at all during the pandemic. In some cases, tenants have left the apartment behind. Franklin Park indicates abandoning the apartment due to a COVID-19 related hardship is not necessary, as Franklin Park work with tenants on COVID-19 related hardships (for example,

filing for relief on their behalf, helping with applications to the City and County, to making payment arrangements for the future. As you recall, they also hired some tenants as well).

Hopefully Franklin Park and CASA will meet soon to address and resolve the situation in advance of any rallies. A CASA representative's attached response states that the organization would be willing to meet. Regardless, City staff will be prepared for possible events on both Saturday and Monday.

Sincerely,

Nicole

Subject: Franklin Park Apartments-Unauthorized Casa De Maryland Rally

Importance: High

Good morning Mr. Turner,

Hope all is well with you. I am reaching out today to bring this pressing matter to your attention. Yesterday we received several emails and calls from residents as well as concerned Greenbelt community members regarding the improper posting of flyers on residents' doors and email notification about a press conference/rally being planned by Casa De Maryland regarding evictions at Franklin Park.. One flyer states a rally will occur on our property on Saturday, however their website states it will occur this coming Monday (link provided). <https://wearecasa.org/condemns-180-eviction-writs-landlord-franklin-park-greenbelt-station/>

Upon expiration of the eviction moratorium last month, my team and I met with and communicated with multiple organizations and officials including yourself to not only defuse the narrative that Franklin Park planned to evict hundreds of residents in a week, but also to use that period to further connect and partner with organizations to assist with the payment of back rent for those living at our community.

We were stunned to find out that Casa De Maryland, one of our partnering entities, would organize such an event to occur on our property without our knowledge and permission. This comes as a shock to us as one of their representatives, Trent Leon Leirman, has been in consistent correspondence with us as part of our partnership to assist residents apply for ERAP funding. Trent also has my email and cell phone number for direct contact as we are committed to ensuring free-flowing communication to support our residents. If there were any shortcomings on our end we were never made aware and thus given the opportunity to address accordingly.

Everyone copied on this email can attest to the fact that my team and I have always been transparent, responsive and accommodating to all inquiries. With that said, neither Trent nor any other Casa member has relayed any information to Franklin Park management regarding residents who claimed that we have refused to work with them or accept payment plans to avoid eviction. If Casa has names or addresses we encourage them to provide us with those details so we can investigate and offer clarity with each case.

As a reminder, Franklin Park made a commitment to pause eviction proceedings for residents with pending ERAP applications and to work closely with ERAP program directors so funding decisions can be expedited; to date we have not reneged on those assurances. Last month we had over 130 writs for which we only executed 11 evictions, all of whom boasted the highest balances, did not have any pending rental assistance application and failed to take advantage of available resources after exhaustive attempts on our part.

Also as part of our continued commitment to our residents, we have been finalizing plans for an upcoming rental assistance fair specifically for our residents who do not have an ERAP application pending. In conjunction with our work with the County, this has been scheduled to occur next week.

We are surprised and disappointed that Casa would go behind our back when we have been working with them in the mutual interest of our partnership, residents, the City and the County. The decision to perpetuate these unsubstantiated claims without discussing with us also diminishes the credibility of Casa and its affiliates, as Franklin Park has no plans to evict 180 residents within the next week, month or remainder of the year.

Mr. Turner we have appreciated that you and other city, county and state members have extended your hands for us to work together for the greater good. Now is the time we all need to pull together and work even closer to minimize the negative impact of the pandemic. Casa's use of their platform to invite press and encourage patrons to attend a rally for a photo op to push a false narrative undermines all the hard work everyone copied on this email has engaged in to assist as many residents as possible obtain rental assistance and remained housed in our community.

With that said, I am seeking your immediate participation along with a Casa De Maryland representative to amicably discuss and resolve this matter to a positive end. Franklin Park does not give permission for this event to occur on our property. I will be reaching out to you shortly and I thank you in advance for your attention to this matter.

Sincerely,

Ms. Knight –

Thank you very much for your correspondence and efforts in response to my letter. I appreciate the work that you and Franklin Park management have done over the course of the pandemic to protect and serve the residents in the community. Based on your response, I appreciate your decision to delay any further pending writs for those that have pending applications under the ERAP. We will continue to work with DHCD on processing these applications and working with the partner organizations you mentioned to continue to provide assistance. Let us stay in communication as we continue to work together on behalf of the community and it's residents.

Hi Trent,

Several of our residents have reached out to our office by email and visit this week to present us with the included flyer that has apparently been attached to a large number of resident doors.

Denise reached out to you by phone today to discuss without an answer.

We have also been presented with CASA website correspondence pointed directly at Franklin Park. A snapshot of which is also below.

Can you help us understand why your organization creating this false narrative.

eviction writs have submitted rental applications for rental assistance. Still, the management refuses to work with the renters that CASA has talked to, not offering payment plan agreements that would allow tenants to pay back rent and prevent their eviction. Many residents on the eviction list have lived there for 10 years or more.

Hello Ashanti,

Thank you for your response. I wish Trent or someone from Casa had reached out so we could have been a part of those discussions.

As stated we welcome the opportunity to meet and address any resident concerns just as we have been doing.

Please provide a list of names of who we will be meeting with so we can plan accordingly.

Also just so that everyone is on the same page Franklin Park Is not permitting a rally or press conference to be held on our private property. We would love to continue an amicable partnership, however a rally discussing matters not brought to our attention ahead of time is counterproductive in resolving this matter.

We look forward to your prompt response so we can move things along in a positive direction.

Greetings Ms. Knight,

We appreciate your written correspondence regarding this matter. After weeks of intense discussion with many Franklin Park residents including those that are CASA members, it is clear that they are scared, lack trust, and because of this some are even unable to sleep at night. The residents would love the opportunity to meet with the Franklin Park management team as a group with CASA and any other interested parties to develop a plan for how we move forward in collaboration. We are able to meet anytime before the press conference on Monday. Please let us know a day and time that would work for you and we'll make ourselves available.
